

**OPTICAL STORAGE TECHNOLOGY ASSOCIATION
AGREEMENT TO BE BOUND BY INTELLECTUAL PROPERTY POLICY
(FOR NON-MEMBERS)**

Optical Storage Technology Association (“OSTA”) has adopted the OSTA Intellectual Property Policy (the “Policy”). The Policy is available for review and downloading at OSTA’s website at www.osta.org/membership/policies. Certain committees of OSTA engage in the development of OSTA specifications. Pursuant to the Policy, contributors of intellectual property to a proposed specification and persons who participate in development of a proposed specification are required to comply with the Policy, which includes submission of a “Contribution and Disclosure Form” (in the case of contributors) and an “Intellectual Property Disclosure and License Position Form for Participants” (in the case of participants who do not make a contribution). These Forms are also available at the OSTA website.

All of the Members of OSTA have agreed to comply with the Policy. However, persons who are not Members of OSTA may provide contributions or otherwise participate in the work of the committee developing an OSTA specification. In this circumstance, such persons are required to agree to comply with the Policy as a prerequisite to participation.

“Participation” means (1) attendance, in person or by telephone, at any meeting (including telephone conference calls) of the committee, any subcommittee thereof, or any group of individuals working on the proposed specification or (2) submitting a contribution, suggestion, idea or comment in any manner or form to the proposed specification (other than a comment in the nature of a disclaimer of participation). Notwithstanding the foregoing, a person may attend one meeting prior to completing and submitting this Agreement; provided that such person does not make a contribution, suggestion or comment regarding the proposed specification at the meeting.

Acknowledging the foregoing, the undersigned hereby agrees to comply with the Policy.
